AIM:

To develop low-fidelity paper prototypes for a Student Task Management App and convert them into digital wireframes using Balsamiq.

PROCEDURE:

1. Tool Used: Balsamiq Wireframes (https://balsamiq.com)
2. Created a new project and selected mobile screen templates
3. Designed multiple screens representing task management flow
4. Used UI components such as:
    - Buttons
    - Input fields
    - Icons
    - Cards
    - Lists
5. Maintained simple and minimal design (low-fidelity style)
6. Converted sketches into digital wireframes using Balsamiq

User Flow:

1. Home Screen – View today's tasks and upcoming deadlines
2. Task Details Screen – View full details of a selected task
3. Add Task Screen – Create new tasks with date, priority, and notes
4. Progress Screen – Track completed tasks and productivity

Home Screen
